Nonviolent Crisis Intervention® Program Training (CPI) Introducing *Nonviolent Crisis Intervention*® Flex

The Flex ON-LINE learning experience - a blended learning course

The Flex experience starts with participants completing an on-line portion of the CPI course, you will need a computer or tablet, internet access, and speakers for this portion (closed caption is available). Course will take approximately two to four hours, and completion of the require quiz at the end of the course (you may exit the course and resume at any time wherever you left off). During the on-line course, participants will use and print the *Learner's Guide* from the program, to use during each of the modules of the course.

Participants then bring their *Learner's Guide* to the assigned one-day WESELPA Certified Instructor classroom session (listed below). **The *Learner's Guide* must be presented upon registration at WESELPA, no admittance without it.** At the registration/check-in for the classroom session, participants will receive the **Flex Participant Job Aide**, for use in the instructor classroom training. In the classroom session participants will learn and safely practice any applicable physical disengagement and/or holding skills for managing risk behavior. **Upon passing the classroom training participants will receive the blue certification CPI card, valid for two years.**

To register select one of the CPI Flex training dates listed below, and submit your registration on-line through the OMS.
