Region 10 Inclusive Education That Works

This training will focus on inclusive education and the best practice for educating students of varying abilities in inclusive settings.

All registration must be submitted on-line (followed-up with a payment to confirm)

Intended audience:

Ideal audience will include multidisciplinary teams working with students with special needs in inclusive settings. This includes administrators, special education and general education teachers, school psychologists, speech-language pathologists, occupational therapists and paraeducators.

Presented by

Nicole Ward, M.A. Education Specialist
Diagnostic Center, Southern California

Hosted by
