

The Parent Project

Most parents with strong-willed or out of control children who take this course share the same thought, *Nothing works with my child!* How is this program different?

Over 500,000 parents with children just as tough as yours created this course! **This 10-week program** is built to help you learn new techniques to deal with your **child/adolescent (ages 11 to 18)** who is displaying self-destructive behavior (e.g., alcohol/drug use, failing grades, juvenile delinquency, gang activity, suspensions/expulsions, chronic absenteeism).

Give us a total of 24 hours and we will help you change your child's life!

When: February 18th– April 28th, 2020
