Tools to Instruct and Provide Services to English Learners with Disabilities

This workshop will focus on tools available to provide services to English learners with disabilities. The 2 sessions will offer an introduction of the English Language Development (ELD) Standards, and will familiarize participants with the most important features of the ELD standards. Participants will learn how to navigate the document in order to embed these standards in the instruction and services provided to English learners with an IEP as well as explore the connection to the English Language Proficiency Assessments for California (ELPAC) and the accommodations that are available for English learners with an IEP. The last part of the training will be spent discussing and delving into the development of linguistically appropriate goals in an IEP for English learners.

Sponsored by WESELPA and SBCSS Educational Services, EL/Biliteracy Programs.

November 14 – 15, 2019
